General Announcement:

Senju Pharmaceutical Co., Ltd.

Launch of Distribution of GAP and GAP-screener - the Gaze Analyzing Perimeters

Senju Pharmaceutical Co., Ltd. (Headquarters: Osaka, Japan; President: Mr. Shuhei Yoshida; hereinafter “Senju”) hereby announces the launch of distribution of the GAP (medical device notification number 38B2X10003000002) and GAP-screener (medical device notification number 38B2X10003000003) in Japan, effective immediately, where the marketing authorization holder is FINDEX Inc. (hereinafter “FINDEX”).

The GAP and GAP-screener are head-mounted automated perimeters, which are medical devices registered and marketed by FINDEX from 2021 and 2019, respectively. Without the need for a dark room environment or a large examination space, the subject can choose between the method of eye-tracking without button operation or the method of pressing a hand switch. For more product details, please see the website of FINDEX (<https://findex.co.jp/index.html>).

Through this distribution of the GAP and GAP-screener, Senju will further contribute to people’s health and prosperity by the realization of FINDEX’s product concept of “Making visual field testing easier & more available”, and Senju’s mission of the “Pursuit of happiness for all people”.
